## PTD-100 temperature sensor kit - order separately

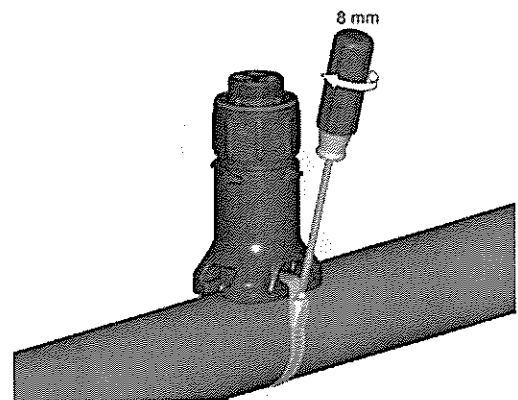

## B-type banding - order separately
B-4:    for pipes up to 4"
B-10:   for pipes up to 10"
B-21:   for pipes up to 21"

**1.** Insert banding guide into expediter and snap into place.

**2.** Mount expediter to pipe using pipe band.

**3.** Tighten cap securely.

**4.** Mount junction box base on expediter. Make sure to align slots to properly orient junction box base. Tighten nut with Terminator-LN-Tool.
